SLSA eLearning

Surf Life Saving Australia (SLSA) has a number of online courses available to support members in completing their SLSA awards in a more flexible manner. Currently online courses are available in the following streams: Aquatic Search and Rescue, Emergency Care, Beach Management and Powercraft. There are also Safety and Wellbeing, Skills Maintenance and Age Managers options available to be completed online.

The online courses available typically cover the theory components and are designed in many cases to be completed in conjunction with a course Learner Guide which you can access from the SLSA Members Area Library. In most cases you will also participate in practical training activities and assessments organised by your surf lifesaving club or SLS state/territory centre to achieve competency in the SLSA award.

An online version of the SLSA eLearning User Guide can be found within the SLSA IT Helpdesk Online Help Library.

If the below state/territory information is incorrect, please contact your surf life saving club before clicking the below login button to log into the eLearning system.

Make sure State is 'WA'

Our records show that you will be studying in state: **WA**. If this is incorrect, please contact your organisation of membership.

Welcome to the Surf Life Saving eLearning system.

To enrol in a course, select 'Training Library' from the top right hand side of the menu. From here all of the modules which are available to you will be visible. Once you have enrolled in a course, you can then access this course from the 'My Training' page on the top right hand side of the menu.

Need Help?

Please email ithelp@slsa.asn.au or call us at the Helpdesk on 1300 724 006. Alternatively, please click here for the user guide if you are having any problems.

WELCOME

Welcome to Module 1 of your Bronze Medallion online training - Safety and Wellbeing.

This courseware is designed to compliment the latest edition of the Public Safety and Aquatic Rescue Training Manual.

Each topic in the Module reflects those found in the training manual. It is therefore a good idea to always have the training manual with you when completing the eLearning.

WHAT WILL YOU LEARN

Throughout this module you will learn how to:

✓ Identify personal and environmental hygiene factors that
   contribute to a safe workplace
✓ Identify the types of costs associated with workplace illness
   and injury
✓ List management and member WHS responsibilities
✓ Define 'duty of care' in the workplace
✓ Identify causes of accidents
✓ Recognise, report and rectify (where possible) hazards and
   risks in the workplace
